# Index to volume 11

## Author index*

A

Ajemian, Elizabeth (*see* Klimek et al.), 79
Amundsen, Jerry, and Drennan, David P. An infection control nurse-advisor program, 20
Anderson, Anita C., and Hodges, Glenn R. Acceptance of hepatitis B vaccine among high-risk health care workers, 207
Ashcraft, Edmond W. (*see* Steele et al.), 217 (Brief report)

B

Barrett, Trisha. Comments on CDC Guidelines, 197
Bart, Kenneth J. (*see* Orenstein et al.), 204 (Correspondence)
Beck, William C. Comments on CDC Guidelines, 141
Bergdoll, Merlin S. (*see* Moyer, Edwards, and Bergdoll), 83 (Brief report)
Brabender, Wayne, and Hodges, Glenn R. Current problems in the recognition and management of patients with tuberculosis in a general hospital, 130 (Brief report)
Britt, Michael R. (*see* Mooney et al.), 92 (Brief report)
Brooks, Betty. Comments on CDC Guidelines, 239
Bryan, Charles S. The hospital tuberculosis registry: An aid to infection control, 57
Burke, John P. Randomized controlled trials in hospital epidemiology (Sixth Annual Foundation for Infectious Diseases Lecture), 165

C

Carpenter, Reginald (*see* Prabhakar et al.), 51
Castle, Daphne (*see* Prabhakar et al.), 51
Castle, Mary, and Klimek, Joseph J. Let's re-evaluate *(Response No. 2)*, 41 (Correspondence)
Chapin, Martha, Yatabe, JoAnn, and Cherry, James D. An outbreak of rotavirus gastroenteritis on a pediatric unit, 88 (Brief report)
Chenelly, Sandra (*see* McLane et al.), 178
Cherry, James D. (*see* Chapin, Yatabe, and Cherry), 88 (Brief report)
Christel, Lois P. Comments on CDC Guidelines, 34
—Frequency of in-service programs, 163 (Correspondence)
Condie, Frances. Book review, 246
Cox, Tex. Book review, 77
Culver, David H. (*see* Emori et al.), 40 (Correspondence)

D

Davis, Alvin. Book review, 161
DeGroot-Kosolcharoen, Jane. Book review, 161
Drennan, David P. (*see* Admundsen and Drennan), 20
Duquesnay, Denis (*see* Prabhakar et al.), 51

E

Edwards, Larry D. (*see* Moyer, Edwards, and Bergdoll), 83 (Brief report)
Ehrenkranz, N. Noel (*see* Russell et al.), 63 (Brief report)
Eisenach, Kathleen D. (*see* Steele et al.), 217 (Brief report)
Emori, T. Grace, Haley, Robert W., Garner, Julia S., and Culver, David H. Let's re-evaluate *(Response No. 1)*, 40 (Correspondence)
Epstein, Beverly J., Lattimer, Joan M., Matsen, John M., and Garibaldi, Richard A. False positive spore strip sterility tests with steam sterilization, 71 (Brief report)
— (*see* Mooney et al.), 92 (Brief report)
Erickson, Mary Ev. Book review, 77
Estes, James P. (*see* Rosendorf et al.), 226 (Brief report)

F

Fletcher, Peter (*see* Prabhakar et al.), 51
Flournoy, D. J. (*see* Ferryman, Flournoy, and Quadri), 68 (Brief report)
Fontecchio, Sally (*see* Klimek et al.), 79
Foster, Laurence R. (*see* Hartstein et al.), 1
— (*see* Hartstein et al.), 205 (Correspondence)

G

Garibaldi, Richard A. (*see* Epstein et al.), 71 (Brief report)
— (*see* Mooney et al.), 92 (Brief report)
Garner, Julia S. (*see* Emori et al.), 40 (Correspondence)
Gilmore, Donna S. Frequency of in-service programs, 163 (Correspondence)
Ginsberg, Michele Michaels (*see* Vargo, Ginsberg, and Mizrahi), 24 (Brief report)
Gracewski, John (*see* Klimek et al.), 79
Gribble, Carin A. (*see* Russell et al.), 63 (Brief report)
Gurevich, Inge. Infection prevention in health care personnel, 162 (Correspondence)

H

Haley, Robert W. (*see* Emori et al.), 40 (Correspondence)
Hamory, Bruce H. Underreporting of needlestick injuries in a university hospital, 174
Hartstein, Alan I., Quan, Margaret A., Williams, M. Lanier, Osterud, Harold T., and Foster, Laurence R. Rubella screening and immunization of health care personnel: Critical appraisal of a voluntary program, 1
—, —, —, —, —. Prevention of rubella in hospitals, 205 (Correspondence)
Hinman, Alan R. (*see* Orenstein et al.), 204 (Correspondence)
Hodges, Glenn R. (*see* Anderson and Hodges), 207
— (*see* Brabender and Hodges), 130 (Brief report)
Hyams, Phineas J. (*see* Russell et al.), 63 (Brief report)

*February, pp. 1-42; April, pp. 43-78; June, pp. 79-124; August, pp. 125-164; October, pp. 165-206; December, pp. 207-258.

# Subject index*

A

Abstracts of papers presented at APIC '83, 144
Acceptance of hepatitis B vaccine among high-risk health care workers (Anderson and Hodges), 207
Annual Foundation for Infectious Diseases Lecture, Sixth, Randomized controlled trials in hospital epidemiology (Burke), 165
Aseptic technique, failure to observe, a nursing practice problem (McLane et al.), 178

C

Catheter-associated urinary tract infections, guideline for prevention of (Wong), 28 (CDC Guidelines)
CDC guidelines for prevention and control of nosocomial infections, 26, 97, 133, 183, 230
Chest roentgenograms, annual, ineffectiveness of in tuberculin skin test–positive hospital employees (Reeves and Noble), 212
Communicable infectious diseases, patients with, recommendations for pregnant employee interaction with (Votra et al.), 10
Community-acquired bacterial pneumonia requiring admission to hospital (Klimek et al.), 79
Compliance with isolation technique (Larson), 221 (Brief report)
Cost, nosocomial surgical infections, incidence and, in developing country (Prabhakar et al.), 51
Current problems in the recognition and management of patients with tuberculosis in a general hospital (Brabender and Hodges), 130

D

Demographic variables, nonformal education, relationship between and ICP's knowledge of surveillance (McGuckin and Rose), 43
Developing country, nosocomial surgical infections, incidence and cost in (Prabhakar et al.), 51

E

Education, nonformal, demographic variables, relationship between and ICP's knowledge of surveillance (McGuckin and Rose), 43
Enterococcal bacteremia, investigation of (Whiteside, Moore, and Ratzan), 125
Environmental control, guideline for hospital (Simmons), 97 (CDC Guidelines)
surveillance, logic of routine (Roberts), 74 (Commentary)

F

False positive spore strip sterility tests with steam sterilization (Epstein et al.), 71 (Brief report)

G

Guideline for hospital environmental control (Simmons), 97 (CDC Guidelines)
for prevention of catheter-associated urinary tract infections (Wong), 28 (CDC Guidelines)
of intravascular infections (Simmons), 183 (CDC Guidelines)
of nosocomial pneumonia (Simmons and Wong), 230 (CDC Guidelines)
of surgical wound infections (Simmons), 133 (CDC Guidelines)

H

Health care personnel, rubella screening and immunization of, critical appraisal of voluntary program (Hartstein et al.), 1
workers, high-risk, acceptance of hepatitis B vaccine among (Anderson and Hodges), 207
Hepatitis B vaccine, acceptance of among high-risk health care workers (Anderson and Hodges), 207
Hospital employees, tuberculin skin test–positive, ineffectiveness of annual chest roentgenograms in (Reeves and Noble), 212
epidemiology, randomized controlled trials in (Burke), 165
general, current problems in recognition and management of tuberculosis in patients (Brabender and Hodges), 130 (Brief report)
registry, tuberculosis, aid to infection control (Bryan), 57
university, underreporting of needlestick injuries in (Hamory), 174
Human infestation by pigeon mite: Case report (Vargo et al.), 24 (Brief report)

I

Immunization of health care personnel, rubella screening and, critical appraisal of voluntary program (Hartstein et al.), 1

*February, pp. 1-42; April, pp. 43-78; June, pp. 79-124; August, pp. 125-164; October, pp. 165-206; December, pp. 207-258.

Ineffectiveness of annual chest roentgenograms in tuberculin skin test–positive hospital employees (Reeves and Noble), 212
Infection rates, reported, effects of postdischarge wound infection surveillance on (Rosendorf, Octavio, and Estes), 226 (Brief report)
Intravascular infections, guideline for prevention of (Simmons), 183 (CDC Guidelines)
Investigation of enterococcal bacteremia (Whiteside, Moore, and Ratzan), 125
Isolation technique, compliance with (Larson), 221 (Brief report)

**K**

Knee surgery, nosocomial toxic-shock syndrome in two patients after (Moyer, Edwards, and Bergdoll), 83 (Brief report)

**M**

Mirsky's tissue fixative, bacterial and fungicidal activity of (Perryman, Flourhoy, and Qadri), 68 (Brief report)

**N**

Needlestick injuries, underreporting of in a university hospital (Hamory), 174
Nosocomial infections, CDC guidelines for prevention and control of, 26, 97, 133, 183, 230
  on primary nursing unit (Mooney et al.), 92
  surgical, incidence, cost in developing country (Prabhakar et al.), 51
  pneumonia, guideline for prevention of (Simmons and Wong), 230 (CDC Guidelines)
  toxic-shock syndrome in two patients after knee surgery (Moyer, Edwards, and Bergdoll), 83 (Brief report)
Nurse-advisor program, infection control (Admundsen and Drennan), 20
Nursing practice problem: Failure to observe aseptic technique (McLane et al.), 178

**O**

Outbreak of rotavirus gastroenteritis on a pediatric unit (Chapin, Yatabe, and Cherry), 88
  *Staphylococcus aureus* surgical wound infection associated with excess overtime employment of operating room personnel (Russell et al.), 63
Overtime, excess employment of, operating room personnel, associated with outbreak of *Staphylococcus aureus* surgical wound infection (Russell et al.), 63 (Brief report)

**P**

Pediatric residential care facility, recurrent staphylococcal infection in (Steele et al.), 217 (Brief report)
  unit, outbreak of rotavirus gastroenteritis on (Chapin, Yatabe, and Cherry), 88 (Brief report)
Pigeon mite, human infestation by (Vargo et al.), 24
Pneumonia, bacterial, community-acquired, requiring hospital admission (Klimek et al.), 79
  nosocomial, guideline for prevention of (Simmons and Wong), 230 (CDC Guidelines)
Pregnant employee interaction with patients having communicable infectious diseases, recommendations for (Votra, Rutala, and Sarubbi), 10
Primary nursing unit, nosocomial infections on (Mooney et al.), 92

**R**

Randomized controlled trials in hospital epidemiology (Burke), 165
Recognition and management of tuberculosis in a general hospital, current problems in (Brabender and Hodges), 130
Recommendations for pregnant employee interaction with patients having communicable infectious diseases (Votra, Rutala, and Sarubbi), 10
Recurrent staphylococcal infection in pediatric residential care facility (Steele et al.), 217 (Brief report)
Relationship between demographic variables, nonformal education, and IPC's knowledge of surveillance (McGuckin and Rose), 43
Rotavirus gastroenteritis, outbreak on pediatric unit (Chapin, Yatabe, and Cherry), 88 (Brief report)
Rubella screening and immunization of health care personnel: Critical appraisal of voluntary program (Hartstein et al.), 1

**S**

Spore strip sterility tests, false positive, with steam sterilization (Epstein et al.), 71 (Brief report)
Staphylococcal infection, recurrent, in pediatric residential care facility (Steele et al.), 217 (Brief report)
*Staphylococcus aureus*, outbreak of, surgical wound infection associated with excess overtime employment of operating room personnel (Russell et al.), 63 (Brief report)
Steam sterilization, false positive spore strip sterility tests with (Epstein et al.), 71 (Brief report)
Surveillance, environmental, logic of routine (Roberts), 74 (Commentary)
  ICP's knowledge of, relationship of demographic variables, nonformal education and (McGuckin and Rose), 43
  wound infection, effect of methods of postdischarge on reported infection rates (Rosendorf, Octavio, and Estes), 226 (Brief report)

**T**

Tissue fixative, Mirsky's, bacterial and fungicidal activity of (Perryman, Flournoy, and Qadri), 68 (Brief report)
Toxic-shock syndrome, nosocomial, in two patients after knee surgery (Moyer, Edwards, and Bergdoll), 83 (Brief report)
Tuberculosis, hospital registry, aid to infection control (Bryan), 57
  problems in recognition and management in general hospital (Brabender and Hodges), 130 (Brief report)
Tuberculin skin test–positive hospital employees, ineffectiveness of annual chest roentgenograms in (Reeves and Noble), 212

**U**

Underreporting of needlestick injuries in a university hospital (Hamory), 174
Urinary tract infections, catheter-associated, guideline for prevention of (Wong), 28 (CDC Guidelines)

**V**

Vaccine, hepatitis B, acceptance of among high-risk health care personnel (Anderson and Hodges), 207

**W**

Wound infection, effect of methods of postdischarge surveillance on reported infection rates (Rosendorf, Octavio, and Estes), 226 (Brief report)
surgical, guideline for prevention of (Simmons), 133 (CDC Guidelines)
outbreak of *Staphylococcus aureus* associated with excess overtime employment of operating room personnel (Russell et al.), 63 (Brief report)
